

# TUBE INVESTMENTS OF INDIA LIMITED

**T**ube Investments of India is a leading manufacturer of Welded, Mechanical and Pressure Steel Tubing with an installed capacity of 150,000 tons of ERW Tubing and 50,000 tons of CDW Precision Tubing

**F**ounded in 1955.

**S**ix Plants at multiple locations spread all over India

**S**erving Auto manufacturers of American, European and Japanese origins

**E**xporting to North America, Europe, Australia and other Asian Countries.

**E**xclusive Export Oriented Unit set up in 1996.

**A**n QS 9000 company, in the process of acquiring ISO 14001 status.

Export Oriented Unit Chennai

## Product Range.

### Electrical Resistance Welded Carbon Steel Tubes

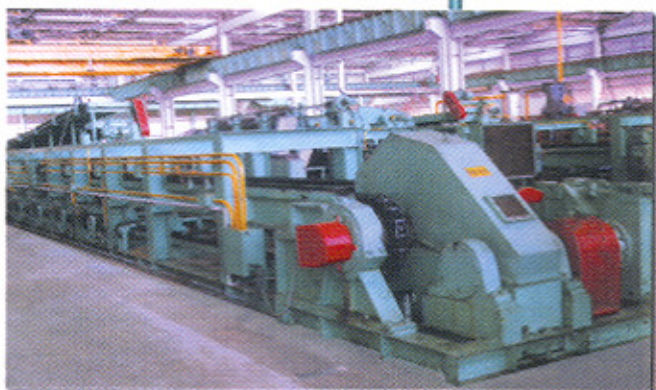

Outer Diameter 12.70 to 127.00mm  
Thickness 0.71 to 6mm  
Length Up to 12 meters  
(Random/fixed - full, cut length)

**Applications: Automotive, Boiler, Air heater, Oil country & general engineering.**

### Cold Drawn Welded / DOM Steel Tubes

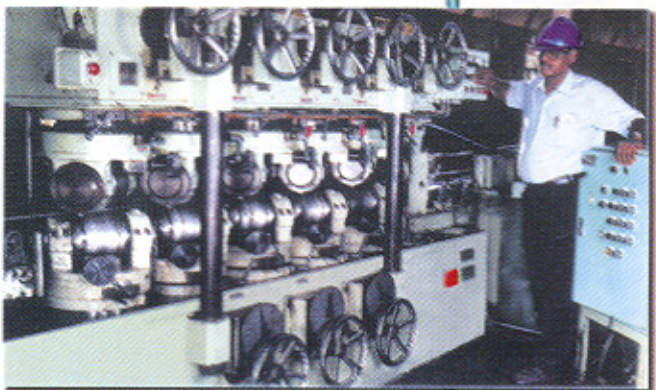

Outer Diameter 10 to 101.60mm  
Thickness 0.71 to 5.5mm  
Length Up to 8 meters.  
(Random/fixed - full, cut length)

**Applications: Automotive Components, Front Forks Hydraulic Cylinders, Shock Absorbers, Steel Roller Chains & Sprinklers.**

Draw Bench

Conforming to ASTM / BS / DIN / JIS / AFNOR / UNI Standards and customer specific requirements.

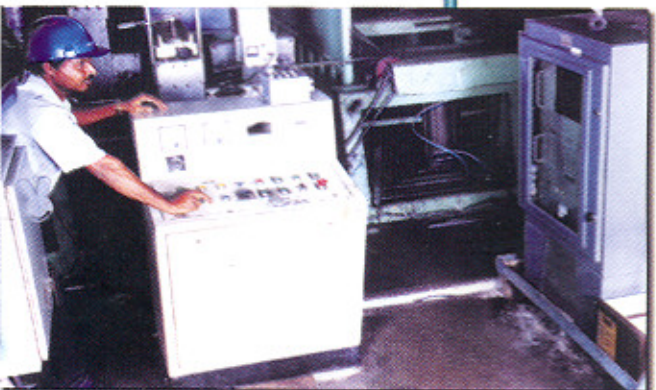

Straightening Machine

### Materials Used:

SAE 1008, 1010, 1015, 1020, 1021, 1026, 1035, 1524 & 1541.

ST-42, ST44-2, ST52-3, RST34-2& RST37-2

Fe280, Fe320, Fe360, Fe410 & Fe490.

Weld integrity test using eddy current Tester

**Testing Possibilities:** Chemical Analysis, Eddy Current Testing, Hydraulic Pressure Test, Mechanical Properties, Dimensional Measurements, Micrographic Examination, Fatigue and Impact Tests.

**TII Precision Steel Tubes - Global Standards, Engineered Solutions**
